PORTABLE AV SOLUTIONS

Hearing Assist System

Boston Light & Sound (BL&S) has been providing solutions that improve accessibility for almost 40 years. Our **portable hearing assist system** gives people who are hard of hearing an opportunity to enhance their listening experience in venues with no sound system in place.

Applications:

- Lecture halls
- Training sessions
- Corporate and community meetings
- Houses of worship
- Classrooms
- Trade shows

Specifications:

- (4) Hearing assist receivers
- (4) Ear speakers or headphones
- (1) Neck loop for those with hearing aids with "T" switches
- (1) Wireless lavalier or handheld microphone
- (1) Padded nylon case

Benefits:

- Satisfies ADA compliance if no hearing assist system is installed
- Easy to set up
- Portable and lightweight
- Flexible to adapt to spaces with or without existing sound systems
- Quality products from Shure and Listen Technologies
- Available for rent or sale

Sale Price: \$2,000.
